

V2005BX-NL-B Roughneck Pro Network Box Camera

Overview

The Vicon Roughneck® Pro V2005BX-NL-B HD IP Box Camera is a professional-grade 5MP surveillance camera engineered for high-performance security installations. Incorporating the AI Engine Gen 2 (Deep Neural Network Accelerated Engine), it provides advanced analytics and reliable detection for critical monitoring applications.

Equipped with a motorized varifocal lens, the camera ensures sharp, detailed imaging, while the optional Auto Back Focus (ABF) feature simplifies installation and guarantees precise focus. Multi-exposure HDR technology enhances visibility in high-contrast environments, and 3D Motion Compensated Noise Reduction (MCTF) improves low-light performance. The True Day/Night ICR function ensures accurate color reproduction by day and superior monochrome imaging at night.

The camera supports quad streaming with multi-codec compression (H.265/H.264/MJPEG), effectively reducing bandwidth and storage requirements without compromising image quality. Local edge recording is available via microSD/SDHC/SDXC card support, while RS-485 connectivity enables seamless integration with external devices.

Offering triple power input options (PoE/12VDC/24VAC), the V2005BX-NL-B provides flexible deployment in diverse installation environments. Fully compliant with ONVIF Profiles S, G, T, and M, it integrates seamlessly with Vicon Valerus™ VMS and a wide range of third-party platforms.
